- Control grip for individual comfort settings
- With optional 3D-Sound system: voice-assisted service and diagnostic support
- Check control for diagnosing main alert messages
- Automatic reset function after tanning session

## **DESCRIPTION**

The Ergoline Prestige 1100 in Mystic Black gives tanners an extreme experience. 52 Dynamic Power, 200-watt UV lamps for a deep body tan, the advanced facial tanner system with 4 Ultra Performance high-pressure units and 3 additional UV-B spaghetti lamps leave nothing to be desired, while 2 high-pressure shoulder tanners with Ultra Performance technology seal the Extreme Power package. We have thought of everything when it comes to comfort and convenience, too. Thanks to acrylic panels at the head and foot ends of the sunbed, individual temperature levels are achieved quickly and maintained throughout the session with Temptronic Plus. These panels also help shield against external noise and allow your customers to fully enjoy the impressive 3D-Sound system with its MP3 dock-in and SD card slot. Aqua Mist & Aroma

provide a refreshing sense of relaxation to the experience, while the innovative cockpit control – with its clear symbols, user-friendly Voice Guide and full-text display – grant total ease of use.

### **DESCRIPTION**

The new Prestige 990 Dynamic Power is ahead of its time in professional sunbeds with its expressive Fashionpink Orange design. This fascinating light design with colored Mood Lights is so alluring and its spacious tanning tunnel and extra-wide Multi Relax base acrylic emphasize the promise of luxury. Its standard Temptronic climate control and Aqua Mist & Aroma ensure a refreshing tanning experience.

Optional features available are a shoulder tanner with Ultra Performance technology and the new 3D-Sound system with subwoofer will not only delight your customers with its full sound, but your customers will also be able to play their own favorite music using the MP3 dock-in. Operating the sunbed is particularly easy due to the innovative cockpit control with its clear symbols, full-text display and available user-friendly Voice Guide.
